Hong Kong Univ. of S&T,
Hong Kong

HIGHLIGHTS OF IDW/AD '16

The 23rd International Display Workshops in conjunction with Asia Display 2016 will be held as IDW/AD '16 for encouraging aggressive research and development of display technologies throughout the world and especially in the Asian region. IDW/AD '16 focuses on the following five special topics and one topical session, which are extremely timely, as well as fourteen active workshops.

The three-day conference will feature 425 papers, including 3 Keynote addresses, 100 invited presentations, 143 oral presentations, and 179 poster presentations. Following plenary session of Keynote addresses in the Wednesday morning, presentations will begin and continue in 8 parallel oral sessions through Friday. Poster sessions and author interviews and demonstrations will enable participants to discuss topics in detail. Exhibits by universities and display industry-related businesses will also be featured from Wednesday to Friday in parallel with workshops. IDW/AD '16 should be of interest to not only researchers and engineers, but also managers of companies and institutions in the display community.

Fukuoka International Congress Center
