

Recruitment guidelines for Financial Supporting Members

The International Display Workshops (IDW) is about to celebrate its 30th anniversary since its inception. It has grown into one of the largest-scale international conferences of the display industry, and has come to be a place where the state-of-the-art researchers and engineers engaged in display-related technology both from inside and outside of Japan exchange the latest information. We consider educating those researchers and engineers in order to dedicate ourselves to the development of the technology to be an important mission for us.

Last year at IDW '22, which was held as a hybrid style conference. The number of participants was 892 from 20 different countries and regions and the conference ended successfully.

We highly appreciate the financial support from your organization.
