Soo Young Yoon
LG Display, Korea

Touching with Feeling: Integrating Haptics with Touch Display

Ed Colgate
Northwestern Univ., USA

IDW '18 OVERVIEW

The 25th International Display Workshops will be held as IDW '18 for encouraging aggressive research and development of display technologies throughout the world and especially in the Asian region. IDW '18 focuses on 6 special topics and one topical session (see the column on the right), which are extremely timely, as well as thirteen active workshops.

The three-day conference will feature 407 papers, including 3 keynote addresses, 124 invited presentations, 131 oral presentations, and 149 poster presentations. Following the plenary session of keynote addresses on the Wednesday morning, presentations will begin and continue in 8 parallel oral sessions through Friday. Poster sessions, author interviews and demonstrations will enable participants to discuss topics in detail. Exhibits by universities and display industry-related businesses will also be featured from Wednesday to Friday in parallel with workshops. IDW '18 should be of interest to not only researchers and engineers, but also managers of companies and institutions in the display community.

407

Papers

Late-news papers will be arranged.

Special Topics
