Artificial Intelligence: from Pixels and Phonemes to Semantic Understanding and Interactions

*Achin Bhowmik
Starkey Hearing Techs., USA*

IDW '19 OVERVIEW

IDW '19 will be held for encouraging aggressive research and development of display technologies. IDW '19 will focus on four Special Topics and two Topical Sessions (see the column on the right), and will feature more than seventy fascinating sessions.

Four keynote and invited addresses in the plenary session will bring to you the hottest display trends, such as micro-LED, artificial intelligence and brand-new displays for automobiles, and uncharted potential of future upcoming displays. The three-day conference will feature 132 invited presentations, 145 oral presentations, and 211 poster presentations. Following the plenary session on the Wednesday morning, presentations will begin and continue in eight parallel oral sessions through Friday. Poster sessions, author interviews and demonstrations (I-DEMO) will enable participants to discuss topics in detail. Exhibits by universities and display industry-related businesses will also be featured from Wednesday to Friday.

Registration Fee

ITE/SID Member	¥50,000
Non Member	¥60,000
Student	¥15,000

Online registration is available until November 15, 2019 at 23:59 JST. On-site registration desk will be open at the conference site.
