ABSTRACT as in the above sample.

1 Introduction

Author defined sections like standard ones in scientific papers such as "**2 Experiment**", "**3 Results**", and "**4 Discussion**".

X Conclusions or **Summary** (X: final section number)

References (no section number)

Subsections (and sub-subsections) could be composed as necessary, and should also be hierarchically numbered as "x.y(.z)".

1.8 Font Size and Typefaces

The font size must be 9 point or larger. Times New Roman, Helvetica, or Arial typefaces are recommended.

1.9 Headings and Subheadings

Major headings for top-level sections and sub-headings for subsections must be aligned to the left side of the column.

Third-order subheadings for sub-subsections must be indented.

2 Experiment

This section describes the details about the text content of the manuscript.
